

## Technology Procurement:

# Stay current and secure.

Fruth Group manages installations, maintenance, monitoring, and replacements.

Stay current and agile while mitigating the risk and cost of purchasing new technology directly. Lower your Total Cost of Ownership (TCO) and maximize your IT investment with hardware purchases through Fruth Group with one transparent and controlled monthly price.

We can manage procurement for you—tapping into our deep partnerships with best-in-class manufacturing leaders.

## Capabilities

**Installation & configuration**

**Monitoring & maintenance**

**Replacement & warranties**

## Secure and accelerate your organization with regular upgrades.

Save valuable internal resources while Fruth's technology experts integrate and optimize everything from workstations to servers, network components, and software and licensing.

## Benefits

Never have obsolete or dated hardware again with Fruth's IT hardware as a service. Our technology experts secure your business and support a competitive edge, so you can:

- **Unburden your in-house team** with Fruth Group taking accountability for your hardware.
- **Gain deep, outside expertise**—igniting greater value and agility with Fruth's experts versed in the latest solutions and aligning them with your unique business needs.
- **Protect and empower your organization** to spark breakthrough performance with Fruth Group, keeping you efficient and up to date with the latest technology upgrades.
- **Rely on the best solutions for your business** with custom-tailored procurement services and implementation approaches built around your unique requirements, goals, and challenges.
